Purpose and use

Use a simple price list to total costs and calculate change.

Teaching notes

These are fictional classroom-shop prices. Use play money or drawings; no real purchases are needed.

Keep units visible. If using actual coins, check the denominations available in your setting rather than expecting a single coin combination.

Answers / suggested responses

1. 75p.
2. 60p.
3. 100p = £1.
4. 60p.
5. Yes, exactly 80p.
