

Measure and compare

Suggested: Years 2-3 | Pupil page

Measure printed lines accurately, then compare and order their lengths.

Name: _____ Date: _____

Print at 100% / Actual size. Check the calibration line before using this sheet. Do not use Fit to page.

Calibration: the line below should measure 5 cm.

Line 1: measure from end to end. Length = ____ cm

Line 2: measure from end to end. Length = ____ cm

Line 3: measure from end to end. Length = ____ cm

Line 4: measure from end to end. Length = ____ cm

Which line is longest? Which is shortest?

How much longer is line 3 than line 2? Include the unit.

Measure and compare | Teacher notes

Suggested: Years 2-3 | Teacher page

Purpose and use

Measure printed lines accurately, then compare and order their lengths.

Teaching notes

The PDF uses exact point lengths, but printer scaling can alter them. Check the calibration with a physical ruler before distributing.

This sheet has been digitally checked, not physically print tested. If calibration is wrong, fix print scaling before marking measurements.

Answers / suggested responses

Lines 1-4: 6, 3, 8, 5 cm.

Longest: line 3. Shortest: line 2.

Line 3 is 5 cm longer than line 2.

Print and adapt

Print the pupil page only if you do not need these notes. Use A4 paper. Provide appropriate help, access tools or a spoken response where useful. Suggested year or grade ranges are starting points, not a statement of curriculum alignment.
